YOUR PERFECT LOOK

Whether you're looking for bold colours, darker tones or a Scandi pared-back look, BE Collins & Hayes has it all!

DO YOU LOVE
UPDATING YOUR LOOK?

How about a practical sofa in your home for you, your friends and your family to enjoy?

BE is a contemporary collection of beautifully crafted sofas, chairs and footstools, that perfectly complement every trend imaginable.

Take Beau into open plan living, or live harmoniously with Beckett. And... you can change your look easily with the choice of tailored or casual covers.

WASHABLE FABRICS

By making our slip covers machine washable at 30°C, we're helping to cut CO2 emissions, save energy and help the environment. Washing at a lower temperature will help each fibre last longer - great for you, and great for the environment.

REGENERATED YARNS

BE Collins & Hayes is proud to be using regenerated yarns in our fabrics - we provide the content on the back of our fabric swatches.

At Collins & Hayes it has always been our commitment to work with the best partners who care about the planet. By using a recognised recycling scheme we're helping to reduce the environmental impact, as well as creating something that will last.

SUSTAINABLE SEAT &
BACK CUSHION INTERIORS

Quallofil® Blue is a new fibre seat & back interior for sustainable sofa cushions. Quallofil® Blue uses 50% recycled plastic, specifically from Plastic Bank – recognised as one of the leading solutions to stop ocean plastic. Plastic Bank also helps people living in poverty to build a better future. Click the link below to find out more.

LIFETIME PROMISE

Not only are our frames made from sustainable sources, but they're also handmade to order to minimise waste, and... they come with a lifetime promise. With our Lifetime Promise, we commit to repair or replace any Collins & Hayes frame that is compromised structurally due to workmanship or materials.

Ensuring you'll always be able to rest easy with a Collins & Hayes sofa.

CARBON FOOTPRINT

By not printing this brochure, we have saved 195KG of carbon being produced*. We have taken this extra step to help protect forests around the world, and continue our promise to eco-friendly practices.
